|---|--|

**Your share of the partnership's trading or professional profits**

Basis period reform simplifies the tax rules for the self-employed and partners so that a business profit (or loss) for a tax year is measured over the tax year itself, regardless of its accounting dates, or whether a business has recently started trading. This removes the complex basis period rules and stops profits being taxed twice, as may have occurred under the old rules (overlap relief).

You may be affected by basis period reform if you had an accounting date that was not on or between 31 March and 5 April in the tax year 2022–23. If you have a transition profit (or loss) to report due to the transition to the new tax year basis you will need to complete the 'Partnership (full) pages'.

Please refer to the Partnership Statement to complete these pages and if you need any help, read the 'Partnership (short) notes'. If you want to enter a loss, or an adjustment needs to be taken off, put a minus sign (–) in the box next to the £ sign.
